Light weight Woollen Goods for spring—Serges, Poppins, Tweeds and imported Flannels, at cut prices.

MRS. THERRIAULT

Champion Theatre

Coming Next Wed. and Sat.

MARCH 7th and 10th

"The Poor Nut"

Broadway held this comedy drama of a lovable college boob close to its heart for more than a year. Now you can see it on the home screen with two of Blodnon's greatest actors. Don't miss it. He alone stood between victory and defeat. But to win the race was to lose the girl he loved. A thousand eyes upon him! Should he sacrifice the dearest thing in his life to uphold the honor of his Alma Mater!

THIS WEEK

"Chang" This is a wonderful picture of Jungle Life.

NOTE—On account of the Big Elk's Dance Friday, March 9th, there will be no show Friday night but the regular program on Wed. the 7th will be repeated on Sat. March 10th.

Mrs. McClung Has Big Audiences

Mrs. McClung's visit to Champion, under the auspices of the P.T.A. was a highly enjoyable occasion. Two addresses were given, one in the church in the afternoon and in Campbell's hall in the evening, the attendance being up to the capacity of the buildings in both instances. Everyone was enthusiastic in expressing appreciation of Mrs. McClung, both audiences being delighted with the views expressed. Mrs. McLeod of Brant, Mr. and Mrs. Duncanson, Mr. Hunt, Mrs. Williamson, Ada Williamson and Bert and Helen Hoskins, furnished an assisting programme. The P.T.A. are to be highly congratulated on their enterprise in providing such a treat for the people of the community.

Curlers' Service Largely Attended

Sunday night was curler's night at the United church, when Rev. S. R. Hunt delivered a special sermon for the fraternity. The church was filled, largely with curlers, and the service was highly appreciated. Messrs. Campbell and Hunt rendered a duet and Mr. Duncanson a solo, Mrs. Duncanson accompanying.

DIED

The seven month's old baby boy of Mr. and Mrs. Royal Ruggles passed away on Saturday morning after a hard battle with whooping cough and complications. The funeral took place on Monday from the United church. Rev. S. R. Hunt preached the funeral service, a large number being present. The wreaths and flowers were beautiful. Sympathy for the bereaved parents is general.

Card of Thanks

Mr. and Mrs. Royal Ruggles wish to thank the many friends who came to their assistance in their recent bereavement, and also the donors of the beautiful flowers.

Card of Thanks

Mrs. E. Campbell wishes to thank the many friends here and in Calgary, for the lovely flowers and kindness shown during her recent illness.

Small Vote Favors Bylaw

While the vote on the bylaw to make the Municipal District of Harmony a school tax collector was very light there was distinct evidence the general opinion was favorable to the proposition. Their were 31 votes in favor 5 against and two spoiled ballots.

Marion Keith's latest story, "Under The Grey Olives" will be took in a Book Sermon, Sunday evening in the United church.

E. Latiff has purchased E. F. Crawford's residence in the sub division. It is understood Mr. Crawford will move to Calgary in the near future.

The Ladies' Aid met at the home of Mrs. P. O. Sommers on Thursday. Mrs. Munhard and Mrs. McDougall were in charge of the refreshments.

Local Bonspiel Was Big Success

The local bonspiel this year was largely patronized and was as usual one of the brightest in the curling season. Interest in the play continued to the playing of the last rocks. Following are the winners: First event, C. McLean 1st, W. F. Bezarth 2nd; Second Event, A. W. Jopling 1st, C. McLean 2nd; Consolation, E. F. Crawford 1st, L. Jopling 2nd. The Ladies' Aid served lunch during the bonspiel.

Alston W. I. Holds Bridge Party

On Wednesday evening Feb. 15th the Golden Rule W.I. entertained at a bridge party at the home of one of the members, Mrs. L. B. Ohlbeiser for Mrs. Frank Beingsmeyer who is leaving this community to live in Brant. Seven tables of bridge played, the prizes going to Mrs. Becker and Mr. Frank Beingsmeyer. Consolation, Mrs. Galloway and Mrs. G. E. Lawrence. At midnight a delicious lunch was served by the ladies, following which a handsome handbag was presented to Mrs. Beingsmeyer on behalf of the Golden Rule W.I. A presentation to Mr. Frank Beingsmeyer from the U.F.A. was also given the same evening. Both Mr. and Mrs. Beingsmeyer will be greatly missed, not only by the above organizations in whose efforts they both wholly cooperated but by the community at large where they have lived for many years. Every good wish from this entire community follows them to their new home.

On Thursday afternoon, Feb. 16th a shower was held for Miss Crystal Galloway at the home of Mrs. D. H. Galbraith. Following a pleasant afternoon spent in appropriate games and other amusements suitable to St. Valentine's a huge valentine was presented to Miss Galloway by little Marjorie Munroe and Marion McDonald containing gifts from all the ladies' present as well as many others who were unable to be present. Tea was served by Mrs. Galbraith from a prettily decorated table. The delightful decorations added much to make the afternoon a very pleasant affair.

Local and General

Mrs. W. C. Hoskins is on a visit to her mother in Calgary.

A large number of ladies from Carmangay attended Mrs. McClung's lecture on Monday.

The O.E.S. regular meeting takes place on Monday. All members of the order are invited.

Mr and Mrs. Irl Ditto and Mr. and Mrs. W. A. Sommers were Lethbridge visitors this week.

Mr. and Mrs. L. Fisher are entertaining on Monday night in honor of their son, Edwin, who leaves shortly to join the U. S. marines.

To our many friends and customers:—Since I have returned I am so crippled with rheumatism I have decided to run a boarding house for a time at least. So will be pleased to have all the customers by the week or month. Your patronage solicited.—Mrs. O. E. Hargraves, farmers' restaurant.

PLACE means more than price—where you buy means more than what you pay—there are as many standards of value as there are stores. In our stock of Men's Fine Furnishings we provide the utmost in quality at consistently moderate prices.

Entire satisfaction or money back guaranteed.

Common sense sets the styles today. Conservation marks the fashion trend for spring. Products of famous makers are here in abundance. Whether it be a new suit, tie or shirt, a pair of socks or a sweater, or a dozen other things a man likes and appreciates—you will find them here at prices that will make choosing a pleasure.

THURSDAY, March 1, 1928

NEWS NOTES

Warning is being issued to farmers at the present time in connection with the germinating quality of the grain which they propose to use for seed. Where grain has been exposed to the weather over winter as has happened this year in some sections of the province, it is particularly advisable to secure a germination test on this grain before it is used for seed. A one-pound sample of grain should be sent to the Dominion Seed Laboratory, Calgary, where the test will be made free of charge for farmers. Satisfactory germination tests can also be made at home by planting two lots of 100 seeds each about one inch deep in boxes of soil or sand. The tests should be kept fairly moist and at living-room temperature for about twelve days. Note should be taken of the number germinating in six days which indicates the vigor of germination, and the number germinating in twelve days which indicates the total number of viable seeds. It is strongly recommended that germination tests be conducted as early as possible in the spring on all grain intended for seed.

Graveling of the Cardston-Waterton motor road has been proceeding rapidly during the past weeks and it is expected that this project will be completed within a short time. Nine hundred yards of gravel to the mile is being placed on the highway, making it a very serviceable road. The road between Cardston and Leavitt is practically completed as is also the section between the lakes and Mountain View on the west end. Considerable work has also been done on the gap between Leavitt and Mountain View.

New stations will be built at Hobbema and Queenstown, Alberta, and new section houses will be erected at a number of different points in the province according to the recently announced plans of the Canadian Pacific Railway for 1928. A coaling plant will be built at Vulcan and automatic block signals will be installed between Dunnore and Medicine Hat. The Red Deer terminal will be extended and additional passenger will be provided at Calgary and Ogden.

W. E. Black, Canadian Government agent at Fargo, North Dakota, in a letter to the publicity branch of the Alberta government states that there is a prospect of a very considerable movement of settlers from his territory to western Canada during the coming spring and summer. All the western provinces are receiving their share of attention at this time, states Mr. Black, and more inquiries are being received about farming opportunities in Alberta than for many years.

One thousand pheasants, and possibly twice this number, will

be imported this year by the Calgary Fish and Game Protective Association and will be set in selected districts to the south and south-west of Calgary. It is announced by C. A. Hayden, president of the association. A number of experiments with this splendid game bird in the southern part of the province has proved very successful and an effort will be made to stock a considerable area adjacent to Calgary.

Entry was made for 2,145 homesteads and 184 soldier grants in Alberta in the fiscal year 1927 and in the same period patents were issued for 2,337 homesteads and land grants. In all of western Canada entry was made for 5,700

homesteads and 408 soldier grants and patents were issued for a total of 5,543 homesteads and land grants.

March is providing wonderful weather so far.

Cheap and Effective

A "Want" Advt.

WOULD REDUCE THE NUMBER OF PORTS OF ENTRY

Ottawa.—A number of recommendations dealing with the re-organization of the Department of National Revenue are contained in the report of Messrs. Clarkson, Gordon and Dillworth, chartered accountants of Toronto, which was tabled by the Hon. W. D. Butler in the House of Commons recently. This firm acted under the authorization of the economic council of August 7, 1939, as auditors to the Royal customs commission.

The report says that from time to time the Minister of National Revenue has put into effect a number of improvements recommended by the investigators, and that these have added to the efficiency of the department.

One of the chief recommendations declared that "to utilize effectively such a body of competent appraisers there should be concentrated in about 100 ports the examination and appraisal of all importations on a country scale, which at present pass through some 700 ports. A large number of the present ports should be closed entirely."

It is shown in the report that there are 729 ports, outposts and stations in Canada and that 254 of these the expenditures for administration exceeded the revenue in the year 1938.

It is suggested that the passing of importations on a commercial scale should be taken out of the hands of all ports having a staff of less than four persons except where for special and sufficient reasons this could not be practicable.

Other recommendations are that a special investigation staff be appointed to deal with suspected evasions of duties and taxes or other frauds; that notices to informers be paid more promptly and in more liberal amounts, while those to officers be abolished; and that the commissioners of customs, excise and income tax, as a committee, be given power to advise or discontinue measures of their states without approval of the minister or governor-in-council. It also is recommended that a board of appeals be established to protect employees against any possible misuse of such powers.

Supervision Of Rural Schools

Important Changes Advocated At Saskatchewan School Trustees Meeting

Saskatoon.—Supervision of rural schools and other important changes in the education system of Saskatchewan were advocated by C. E. Little, president, at the annual convention of the Saskatchewan School Trustees' Association, between 700 and 800 delegates were present.

"We must face the fact that in spite of the great improvement in the educational system of Saskatchewan and the efforts of the educational department officials, inspectors, teachers and trustees, our rural schools are not yet in a general satisfactory condition," declared Mr. Little in his presidential address. "One of the great handicaps from which they suffer is the lack of adequate supervision."

Mr. Little said the services of an expert were required to undertake the supervision which he estimated would cost from \$100 to \$200 a school depending upon whether one or two municipalities were placed in charge of an expert. For such a small additional cost they could give additional children an equal chance with the children, he added.

Estimating that 75,000 of the 205,000 children in Saskatchewan elementary schools required treatment for various defects, Mr. Little urged that the nursing staff should be increased immediately so that it would be able to inspect all the public schools in the province annually.

Talking Dog Has Rival

Great Deal Converses With Reporter Of New York Post

New York.—The New York Herald-Tribune says that New York has a talkative dog comparable to Prince Jacques, French bulldog, reported to be the sensation of the Eastern dog show in Boston.

Boulderwell, a grey, owned by Mrs. J. Stuart Cumplins, wife of a New York attorney, the paper states, conversed with a reporter and demonstrated its ability to "talk." "He do you do," "I want to go out," and a number of other phrases.

W. N. U. 1722

C.P.R. Traffic Chief Dead

C. E. E. Usher Had Been With Rail Way For 42 Years

Montreal.—C. E. E. Usher, general passenger traffic manager of the Canadian Pacific Railway, died suddenly at his residence in Westmount. He was 71 years of age.

Mr. Usher was born at Chrysler's farm, Chippewa, Ont., Dec. 29, 1867. He joined the C.P.R. on Nov. 1, 1886 as chief ticket clerk in the passenger department at Montreal.

His rise to executive office was rapid, culminating in his appointment as general passenger traffic manager of the company on Sept. 1, 1922, with jurisdiction over passenger and traffic matters covering rail and steamships on the Atlantic and Pacific and also gave him charge of the entire hotel chain of the company.

Mr. Usher originally intended to go in for a musical career but owing to force of circumstances entered railroad service instead.

He joined the Canadian Pacific Railway when the trans-continental service was inaugurated and was therefore contemporary with the extension of that railway across the continent. He had seen it grow to a world-wide organization, stretching through the Dominion and encircling the globe.

China Hopes For Improvement

People Looking For Better Times During This Year

Canton.—Thankful that the "year of the rabbit" just closed behind them, the people of China today are hoping for better times under the new year of the mystic dragon now presiding over the current year.

The "year of the rabbit" ended in the midst of crippled domestic trade, curtailed exports and in general a dreary commercial outlook. Canton and South China suffered in the New Year hopeful but with gloomy forebodings.

The new lunar year means much to China and her more than four hundred millions of people. In addition to being practically her only holiday of the year, it is the chief commercial settling day when all accounts of the old year are "reckoned up and paid."

World Calamity Predicted

Date Of Commencement Set At May 29 This Year

Ottawa.—If the symbolism of the great pyramid of Egypt is reliable they forebode a great calamity to commence at midnight of May 29 this year, according to T. R. Hanson, Toronto, expert secretary for the British League Federation of Canada.

Addressing a gathering of Ottawans, Mr. Hanson made it clear that he was uncertain just what form the calamity would take, "but if the prophecies of the Bible were indeed the true word of God, and current history was a guide" then he was afraid it was the "war to the end."

Wins Quebec Dog Derby

Enble St. Godard Beats Nearest Competitor By Two Minutes

Quebec.—Enble St. Godard, master of The Fox Man, won the annual international dog derby here by defeating Leonard Seppala in the third day's heat by 2 minutes and 23 seconds.

St. Godard's time for the 41-mile run was 3:39:07, while Seppala was second in 5:11:10, and Earl Brydges, The Fox Man, third in 5:42:50.

The total time for the races for the three ways was: 1. St. Godard, 3:39:07; 2. Seppala, 5:11:10; 3. Brydges, 5:42:50.

Ready To Sail Earlier

Canadian Destroyers May Be Finished Before End of May

Ottawa.—The Canadian destroyers Vancouver and Champlain, which are being recommissioned at Portsmouth for service in Canadian waters, will probably be ready to sail earlier than March 20 as was originally planned.

This was Canada's total export of newprint for the 12 months ending January 21, was \$124,148,000, as compared with \$115,013,128 for the corresponding previous 12 months.

The returns were made public by the Dominion bureau of statistics. "The total export of paper and manufactures of paper were \$130,570,320 for the last 12 months, and \$122,335,320 for the year before."

ANSWERS GIVEN TO QUESTIONS ON IMMIGRATION

Ottawa.—A number of questions dealing with immigration were answered in the House of Commons, their range extending from the admission of Asiatics to the cost of transportation from Europe to Canada.

It is shown that from 1921 to 1927 there were 787,408 immigrants arrived in Canada from Great Britain, the continent of Europe and the United States. Of these 351,421 came from the United Kingdom; 249,321 from the continent, and 186,657 from south of the international boundary.

The cost to the country for bringing in these immigrants was \$2,294,186, of which over 50 per cent. was spent in connection with British immigration—coloured and white.

The figures disclose that the banner year in immigration from the Old Country was that which closed on March 31, 1921, when 74,282 newcomers came to Canada. In the fiscal year, ended March, 1927, the number of world-wide immigrants from European continental parts was 176,673, a figure that exceeded by 370 the combined totals of British and American immigration during that period.

Since 1923, the year in which the great Asiatic pandemic was adopted, to December 31, 1927, there has been 61,267 new settlers brought in, at a cost of \$1,534,534.

The answer stated that provision was made under the Canadian Farm Loan Act of 1927 to assist Canadian settlers of settling on the vacant lands of the country.

In the year 1927 there were 94 Chinese admitted to Canada under permit, and of these 40 entered as actors and actresses; four were missionaries and three were teachers. Thirty-five of the 94 had already left the country.

In the same year 493 Japanese entered Canada, distributed in 118 adult males, 27 adult females, and 65 children.

The laboring class account for 154 of both sexes, while farmers totalled 118 both sexes.

Will Support Prohibition Washington.—Declaring the United States has "deliberately undertaken on a great social and economic experiment, not in motive and far-reaching in purpose," Secretary Hoover, as a presidential candidate, pledged himself to support the prohibition amendment.

Husky Twice Saves Master's Life

Protonia dog team, has many friends, but those who watch his owner with more interest than Sergeant William Gremson, of the Royal Canadian Mounted Police. The Sergeant, who is six-foot-three and the crack marksman of the force, tells, with tears of pride in his eyes, how Montie, his dog, saved his life on two occasions.

An early freeze in the North Country. The team with "Montie" in the lead crossing Sturgeon Lake. Then the realization that the ice was cracking and bending and the knowledge that it was too thin to allow the sleigh and driver to stand still long enough to turn. There was no retracing, they must go on. "Montie" waited for no word of command.

He led the team on, at a breakneck speed across an expanse of several miles, with death facing them at every step, and reached the opposite shore in safety.

Once again, the following year, the Sergeant claims that "Montie" saved his life. He had the team on, at a breakneck speed across an expanse of several miles, with death facing them at every step, and reached the opposite shore in safety.

Once again, the following year, the Sergeant claims that "Montie" saved his life. He had the team on, at a breakneck speed across an expanse of several miles, with death facing them at every step, and reached the opposite shore in safety.

NEW CANADIAN PEER

Lord Strathcona and Mount Royal, new Canadian peer, who is a member of the royal commission on Indian reforms which was greeted by rioting on its arrival in India.

Testing Invention For Planes

Illinois Engineer Has Secured Patents For Gasoline Turbine Motor

Chicago.—Assured that three months including Canada will grant him patents on his gasoline turbine aeroplane motor, R. E. Linsley, engineer of Libertyville, Ill., is going forward with plans to test his invention in a trans-Atlantic flight. France and the United States already have recognized the patent.

Mr. Linsley said his engine will have a third greater cruising radius for the amount of fuel used than any existing aeroplane engine.

Lindbergh Honoured As Memorial

Washington.—A bill to authorize the purchase of the Lindbergh home at Little Falls, Minn., as a suitable memorial to the achievement of Col. Charles A. Lindbergh, through whose efforts the Lindbergh home has been introduced by Senator Shipstead, Farmer-Labor, Minnesota. A similar measure has been introduced in the house.

Federal Aid Cancelled

Contributions To Unemployment Relief In Provinces Was War-Time Measure

Ottawa.—Withdrawal of Federal contributions to the provinces for unemployment relief is announced in a letter from Premier King to Premier Bracken, of Manitoba, dated February 29.

The Prime Minister in part says that the policy of the government as set out at the Dominion-Provincial conference was "that such assistance as had been given from the federal treasury had justification as a war-time measure to meet conditions arising out of the war and the re-establishment of returned men in civil life."

Mr. King continues: "It was stated at the conference that the justification for Federal assistance in the matter of unemployment on this ground no longer exists. In our opinion other circumstances have not arisen which at the present time justify contributions from the federal treasury to either the provinces or to municipalities as an assistance in dealing with the problem of unemployment."

The letter was in answer to inquiries from the Manitoba government as to what aid could be expected this year.

London Chimes Travel Nearly Around World

Re-Broadcast In Australia Also Heard In Buffalo, N.Y.

Buffalo, N.Y.—Chimes of Big Ben in London, re-broadcast by Station 2BC in Sydney, Australia, went on the air over a radio station here.

The evening programme of the Australian station was broadcast by the local stations. After the usual musical programme, the Sydney station picked up the London broadcast and in it was believed to be the first experiment of its kind in the history of radio. The chimes were heard in Buffalo, after travelling nearly around the world. At one point in the broadcast the Sydney station called "Hello, America," and sent greetings from Australia to the people of Western New York.

Some difficulty was had with heavy atmospheric conditions, but after preliminary tests, signals were picked up very clearly.

New Jail For Manitoba

Will Be Located Where Farming Operations May Be Carried On

Winipeg.—Manitoba is to have a new provincial jail and prisoners who are sent to it will have to work at farming operations, according to an announcement made by Hon. W. J. Major, Attorney-General, in the Legislature.

The site of the new institution to cost \$300,000, has not been selected yet, but the Attorney-General stated it would be located at a place where farming operations could be carried on in combination with the ordinary prison routine.

CONDITIONS MORE FAVORABLE IN LIVESTOCK TRADE

Vancouver.—Conditions now in all branches of the livestock industry are more favorable than at any time in the last seven years, declared Mr. W. A. Wright, president of the Western Canada Livestock Union, at the opening session here, of the fifteenth annual convention of the organization.

More than 190 delegates from the western provinces were in attendance at the three-day convention. Branches of the industry were represented, as well as the Dominion and Provincial Governments.

"It would appear as though our farmers and ranchers were in for a considerable period of rest and recuperation," declared Mr. Wright. "Livestock prices compare more favorably with the purchasing power of the agricultural products than at any time since 1920, which means the purchasing power of livestock during 1927 has recovered its pre-war relative to other livestock."

Referring to a ten million dollar project of stocking interests last year, the president urged the necessity of an organization of producers to meet the competition of collective buying by selling collectively. During his term as head of the union, Mr. Wright said, he has become more than ever convinced of the necessity of the organization to the livestock industry and it has become recognized by provincial and federal authorities as the insidiousness of livestock interests.

ABIG CUT IN MADE IN U. S. NAVAL PROGRAM

Washington.—Shaping Secretary Wilbur's recommendation for 71 new warships, the house naval committee decided to reduce the number of 20 of 16 ships, one of them an aircraft carrier, and the remainder cruisers of the 10,000-ton class. It turned "thumbs down" on new submarines.

This action, taken after a protracted executive session, was described by Chairman Butler as practically unanimous and in line with the original United States proposal to the unsuccessful Geneva armistice conference.

Wilbur had urged the committee to approve a building program of 20 cruisers, five aircraft carriers, nine destroyer leaders and 32 submarines, representing the program as having the backing of President Coolidge.

Butler estimated the committee's program would cost \$274,000,000 as compared with \$740,000,000 of the administration's plan, both figures excluding the increase in aircraft and personnel for which the additional ships would call.

The committee, in refusing to provide for submarines, turned a deaf ear not only to the naval secretary but also to an endorsement by one of its own members, Representative McClintock, Democrat, Oklahoma.

The committee provided that the 15 cruisers should be started within three years and completed within six years, with an aircraft carrier be started within two years.

The committee also adopted a provision that "in the event of an agreement for the limitation of armaments by international conference to which the United States is signatory, the committee is hereby authorized and empowered to suspend in whole or part any of the naval construction authorized under this act."

Established New Air Records

British Aviator Reaches Australia From England In Fifteen Days

London.—Bert Hinkler, British aviator who arrived in Australia Feb. 22, a declared in Britain having performed one of the most remarkable feats of flying skill and endurance that has yet been accomplished. Claims are made that the 15-day flight established five new air records, using the fastest flight between England and Australia; the longest light plane flight ever made; the longest solo flight in a kind of an aeroplane; the fastest journey from England and India; and the first non-stop flight between London and Rome.

It developed that Hinkler was poorer by about \$10,000 than he would have been if he had completed arrangements for a policy with Lloyd's which he previously was stated to have taken out. The underwriters said that Hinkler had arranged for a policy of about \$250,000 against reaching Australia within 16 days, but for some reason left without completing the negotiations.

The Daily Mail said that the rest of Bert Hinkler's flight to Australia was to test a new undercarriage. This the British hero intended himself and to it he attributed his success in his present flight.

The plane he uses is fitted with folding wings and an undercarriage which swings back when the wings are folded, enabling the flier to house the machine in a garage and making it easy for one man to handle.

Hinkler sent a message to London saying he never had the least assistance in moving the machine since he started.

Auto Racer Near Death

Had Miraculous Escape In Attempt To Sober Up

Dyersen Beach, Pa.—Frank Lockhart, internationally known race driver of Indianapolis, narrowly escaped death when he crashed his car at the end of his powerful Stutz Blackhawk special during an attempt to set a new world's automobile speed record and handled by him the car while travelling at 225 miles an hour. A superficial examination revealed no obviously serious harm.

The car's old racer suffered a severe shock but otherwise was not seriously hurt. This was the prospect of a physician who had been hospitalized to which he was taken.

A complete examination, the doctors said, showed no broken bones, no internal injuries, and that of the run a few lacerations on his face. Lockhart was suffering principally from shock.

CHAPTER XIX.—Continued

The Englishman stretched out his arms dramatically. His voice quivered like a violin string. "The British Empire is my country," he said. "I was born beneath the British flag, and so were my people for generations back. I love it. The British Empire is my country," he said. "I do not reason. I'm not like your mother calling—would you wait to question if your mother called? If you knew your mother was in trouble, wouldn't you hang back to see first if she had been to blame in any way—would you? My mother couldn't be wrong—not to me. That's what I mean."

Helmi was coming in from the kitchen with the desert on her big tray. She paused, arrested by the strange voice speaking with such terrible earnestness.

Helmi was not stopped, dashed. "Empire might rise or fall, but Bill believed in getting his 'vittles' while they were hot. 'Well no,' he said, 'I can't say as I feel that way toward my country. It's a case of show me—I'm from Missouri, first, last and all the time.'"

Helmi watched the Englishman's face. He was staring helplessly at the complacent big giant before him, who serenely battered the idea of bread on his broad palms as he spoke.

"I ain't no fussy over my old British Empire, anyway," added Bill. "I don't know but I'd just as soon see Germany win."

Arthur Warner, walked over to where Bill sat. His face was white and his eyes were just as blank as white was going to happen.

"You can't insult my country in my presence," he said quietly, and stepped the Swedish face with his open hand.

With a hoarse shout Bill sprang from the table.

Helmi recoiled and darted forward, but the Swedish chest had already landed with smashing force on the Englishman's face, sending him reeling to the floor.

It was Helmi who was first beside him. "Oh, you big sly, Bill Larsen," he cried, indignantly. "The only guy you a little sly, but you snarl at him like a kicking horse. You're a big bun, Bill Larsen, that's all you ain't maybe you killed this man."

A Blessing to People of Advanced Years

Gin Pills relieve sufferers from kidney and bladder trouble

"I wonder if you really know what a blessing Gin Pills are to people of advanced years."

"I am 72 years of age, and suffer from a remarkable time with kidney and bladder trouble. My rest was before I found Gin Pills to get me in the state of mind and four times, later I suffered with kidney and bladder trouble. I am now, after taking Gin Pills for years, in the best of health and my bladder is in the best of health."

"I am 72 years of age, and suffer from a remarkable time with kidney and bladder trouble. My rest was before I found Gin Pills to get me in the state of mind and four times, later I suffered with kidney and bladder trouble. I am now, after taking Gin Pills for years, in the best of health and my bladder is in the best of health."

From and have been found in Gin Pills by thousands of people of advanced years who have had kidney and bladder trouble. It is even slightly troubled in this way, get a box today at your druggist's or at the Canadian Drug & Chemical Company of Canada, Limited, Toronto, Canada.

Has Many Underground Rooms

Celling At Street Level

A recent census in one London borough alone reveals the existence of 7,000 basement rooms, of which 1,000 have cellings at street level and are death-traps, therefore, if floods come. It is estimated that there are 200,000 basement rooms in the County of London.

Of course, not all are used as sleeping apartments, but the majority are habitations for day use and are let to people who cannot yet find other homes. One can scarcely call this condition of things "shameful"; it is an unwholesome legacy of the war, and borough authorities, in sheer mercy, are compelled to turn a blind eye to the law until arrears of building, partially of workmen's dwellings, have been wiped out. They can't turn the people into the street.

Why Is Red Rose Tea so fresh and flavorful?
The answer is that it is a blend of the choicest, juiciest leaves, picked when only ten days old—and sold by your grocer in clean, bright aluminum. No tea can be expected to retain its richness and strength unless packed in this modern metal container—the only package worthy of Red Rose quality.

and Old Sin are hand in glove, and no one can tell them anything. She says it's her duty to care for a soldier who is going out to die for all of us. Well, he don't need to die for me—I'm an American citizen, and I guess Old Glory will always protect me. I wonder what Jack Doran would say if he came home right now? If I know him, and I certainly should, a thing like this will take a lot of explaining. Poor Mr. McMann would have shot any man whom he found in his house like this. He was so impulsive where I was concerned. He didn't even like to have me left alone with the ice-man. I told him it was nonsense, but nothing could change him."

But Helmi and her guest were not concerned over public opinion. Strongly enough, neither was he had thought about it. The doctor from Innerman had set the broken arm, and the rest was up to him until the dizziness in his head had passed.

The time passed pleasantly for Helmi. He was glad to have someone to care for, and "Big" was the called him, was so grateful. When he tried to pay her, Helmi firmly refused to accept anything. "You are a good man, and I feel as ever right after you go to fight for us. I am glad to help you. I wish I could do more." It came to the day of, and Arthur Warner was sitting in the reading-chair watching Helmi as she packed his valise. She had taken out her things, and he had seen her mended them, and pressed his clothes. "By Jove, Helmi," he said, in admiration, "you are a born nurse, to quiet and capable. They are called for nurses over there—can't you come along? I have lots of friends there who haven't forgotten me. I am sure, and they would get you in. You are too smart a girl to be just a waitress."

Helmi held up a little garment which she had been making, and quite frankly told her why it was impossible for her to go.

The Englishman apologized humbly.

"Oh, no," said Helmi. "It's all right. I did not tell you. No one here knows yet, but I am not and about it. I am glad, I am only and about Jack being away."

It took him a moment to get his mother and Helmi after an interval of silence. "You would fight for her even if she were wrong. No, she could not be wrong to go. You are a lovely thing. Do all men feel like that? I would like to have a son who would feel like that for me."

"I think all decent men feel for that way," Warner said simply.

(To Be Continued.)

Trail Riding in the Rockies

There is no place in the Canadian Rockies where trail riding is more enjoyable than in the Canadian National Park, in southern Alberta. Over 100 miles of trails, broad, well-made and so safe that even the most nervous may feel alarm, are open to the visitor. Nearly a score of trips can be arranged from the townsite of Waterton Park.

Disposal Patient: "Yes, doctor, my head is like a lump of lead, my neck's as stiff as a drainpipe, my chest's like a furnace, and my muscles contract like bands of iron."

Doctor: "It is not sure you shouldn't have gone to a hardware dealer."

ECZEMA IRRITATED AND BURNED

On Arms and Legs Six Years. Cuticura Heals.

"When I was a small boy eczema broke out on my arms and legs in small patches. As I grew older the eczema became so bad and turned very sore that I was obliged to use Cuticura. It is healed and burned so that many people have been cured of eczema by the continued use of Cuticura."

A friend advised Cuticura Soap and ointment as I used for the eczema. I found great relief after using Cuticura Soap and a box of Cuticura. I am now cured of eczema. (Signed) Ed. L. Jones, 712a Jasper Ave., Edmonton, Alta.

Use Cuticura Soap and Ointment for daily toilet purposes. Write to J. C. Kenyon, 1000 Broadway, New York, N. Y., for Cuticura Soap and Ointment.

C.P.R. Has Big Program

Will Employ Thousands Of Men and Spend Millions Of Dollars On New Work In West

Work for thousands of men in Western Canada and payrolls running into millions of dollars are indicated in the western building and expansion program of the Canadian Pacific Railway for the 1925 season. The details of the program were announced by D. C. Coleman, vice-president of western lines.

Tenders are already out for some of the work and operations will be pushed to the utmost as soon as spring opens. In Saskatchewan new stations will be erected at McMahon, Arley, Bynville, Laevett, Neilburg, Crane Valley, Turberville, Rockglen, Cross Valley and Chatham. In Alberta, new stations will be erected at the program states. A number of stations will be erected at different towns in Manitoba. The capacity of the Western freight car shops near Winnipeg are to be doubled and the locomotive shops enlarged.

At the town of Hardisty, Wilkie and Goudie, in Saskatchewan, new coaling plants will be built and the same construction will occur at Vulcan, Alta., and at Crow's Nest. Nelson and Tadmire in British Columbia. Additional passenger plants will be installed at Calgary. Red Deer terminal will be extended, additional track will be built at Ogden, Calgary and Winnipeg and at Vancouver new tracks will be built to serve the company's pier and also to serve the grain elevators to be constructed near the Second Narrows bridge.

A very extensive program of bridge replacements will be undertaken and approximately 250 bridges of 100 pound steel will be placed in the main trunk west of Swift Current.

RHEUMATIC PEOPLE CAN OBTAIN RELIEF

By Enriching their Blood With Dr. Williams' Pink Pills

Rheumatism is a disorder of the blood. It attacks people when the blood is thin and impure, thus setting up inflammation of the muscles and joints. The symptoms are stiffness, pain, swelling, and sometimes fever. The cause is the blood. The blood is the life of the body. If the blood is thin and impure, the body is weak and the muscles and joints are inflamed. The blood is the life of the body. If the blood is thin and impure, the body is weak and the muscles and joints are inflamed.

The blood is the life of the body. If the blood is thin and impure, the body is weak and the muscles and joints are inflamed. The blood is the life of the body. If the blood is thin and impure, the body is weak and the muscles and joints are inflamed. The blood is the life of the body. If the blood is thin and impure, the body is weak and the muscles and joints are inflamed.

The blood is the life of the body. If the blood is thin and impure, the body is weak and the muscles and joints are inflamed. The blood is the life of the body. If the blood is thin and impure, the body is weak and the muscles and joints are inflamed. The blood is the life of the body. If the blood is thin and impure, the body is weak and the muscles and joints are inflamed.

FOR COLDS
AYER'S
ASPIRIN

To break a cold harmlessly and in a hurry try an Aspirin tablet. And for headache. The action of Aspirin is very efficient, too, in cases of neuralgia, neuritis, even rheumatism and lumbago. And there's no after effect; doctors give Aspirin to children—coughing infants. Whenever there's pain, think of Aspirin. The genuine Aspirin has Bayer on the box and on every tablet. All druggists, with proven directions.

Physicians prescribe Aspirin; it does NOT affect the heart

Aspirin is the most powerful of all the drugs in the world. It is the only drug that is so safe and so effective. It is the only drug that is so safe and so effective. It is the only drug that is so safe and so effective.

Little Helps For This Week

"He not hasty in his spirit to be angry; for anger rests in the lap of fools."—Ecc. vii. 6.

As though an ill-thatched roof The pelting rains descend, So fit imitating mind The stormy passions descend.

As well-thatched roofs defy the rain, So passions crash and dash against The thoughtful mind in vain.

—The Bhagavadgita.

Like those who turn their houses and themselves within them, anger makes all things within full of fire. Anger, smoke, and noise; so that the soul can neither see nor hear anything that might relieve it. Wherefore, sooner will an empty ship in a storm at sea admit of a governor from without, than a man, tossed with anger and rage, listen to the voice of another, unless he have his own reason first prepared to entertain it.—Plutarch.

Fish bones are being turned into ornaments for women's hats by an English firm.

Isthmian plague killed off one-fourth of the world's population in 1518.

Prince Owns Oyster Beds

Leases Granted to Duchy Of Cornwall To Company

I wonder how many people know that among the many varied possessions of the Prince of Wales are fishing rights in the Duchy of Cornwall. The Prince does not breed them himself, but leases 400 acres of ground at Port Navas to a company and allows them to be leased in the River Fal and afterwards transferred to a stretch of "weed" water at Helford. Although he is not a great oyster-catcher, himself, the Prince takes such an interest in an industry which gives employment to many of his Duchy tenants that he has caused the King not only to have a regular weekly supply sent to Buckingham Palace, but to having no others on the royal table.

Another Aid To Aviation

Radio Signals Guide Pilots Through Fog and Storm

More elaborate to save aviation—fog— is about to be overcome through experiment, says Col. Paul Hindenburg. The King not only to have a regular weekly supply sent to Buckingham Palace, but to having no others on the royal table.

"Since radio engineers have found that radio waves can be directed through ether," Col. Hindenburg says, "experts have evolved a system of guiding pilots through fog and storms by means of radio signals."

In a recent experiment one airplane had been guided through an intense fog from a New York field to one in Western Pennsylvania.

In order to demonstrate the advantages of using clean seed special seed cleaning machinery is to be taken through the province of Nova Scotia by the provincial Department of Natural Resources for the purpose of enabling farmers to clean their seed.

Julius Verne was born a hundred years ago, and the extravagant fancies that made him a popular writer of fiction have become the sober commonplaces of our everyday life.

On fishing trips take Minard's.

CHAMPION CHATTER

VOL. 1

Thursday, Mar. 1, 1928

No. 3

Published in the interests of the People of Champion and Farmers of this vicinity.

GEO. L. DEPUÉ, Editor

EDITORIAL

We were reading the other day about a California town that is bringing new families to settle there by means of a travelling "community salesman," hired for the purpose. The population of Champion community is 1,000 and it seems to us that we should have just that many community salesmen, each bringing one new family a year. Let's try it.

Frank Caldwell took out a new Copper Cattle Toner that is 10 ft. elevator, the other day.

BRIGHT LADS

By the time a boy is ten years old he knows everything that you have been at pains to hide.

Farming by old meth-

ods is hard, hard work, but hundreds of thousands of farmers are fighting their way clear of the worst of it by using McCormick Deering tractor power and equipment.

The weather on the 1st of March, we've seen it every year, by God, it's nearly always very good, or else it's very bad.

This business would be worth much to us without the friendships we have made in the 9 years we have been in it.

Most merchandise is from Missouri—to be sold it has to be shown.

Our heartiest sympathy goes out to Mr. and Mrs. B. B. Buggles and to Mr. S. Purcell in their sad bereavement.

We have just received one of the New McCormick Deering Press Drills for a sample. Come in and look it over.

P. Helm left us an order for a 28 run double disc McCormick Deering Drill the other day. Thanks Pete.

And now the wives are proposing an eight-hour day some time here in Champion, say they don't think theirs would want to work that long.

You should go in and let H. Gill show you his new and up-to-date installation of Frigidaire. Champion is going ahead.

The W. I. sure knows how. If you were at their dance you'd surely agree.

Sietto Bros. left us an order for a 24 ft. disc harrow and 12 ft. cultivator this week.

Good Equipment Makes a Good Farmer Better

Local and General

The lengthening days are a matter of general satisfaction.

Mrs. John Anderson celebrated her birthday on Feb. 29th. Mrs. Anderson has the distinction of having only one birthday in four years.

Miss Kathleen Gowell, of the Canadian Bank of Commerce staff is away on a six weeks vacation which she will spend in Lethbridge taking special medical treatment.

To Champion Housewives—We have for rent Johnsons Electric Floor Polisher. This will save you the drudgery of the old system and our charge is very reasonable.—W. C. Hoskins.

The next meeting of the W. I. will be held at the home of Mrs. B. N. Woodhull on Tuesday, March 13th. Roll call will be answered with Irish jokes. Mrs. Dow will read a paper on "Education and Better Schools."

If you think you have troubles, go to see "Chang" and you will come away feeling that these are pigmy matters compared to the tribulations of the jungle pioneer trying to establish a home for his loved ones. If you haven't any troubles and just want some thrills, go to see "Chang" and you'll get them plenty.

This is a movie which will delight children and adults alike. It is entertaining, instructive, amusing and a true story, which certainly increases its human interest value. Its theme is gripping. Of pictorial beauty, there is plenty of it. "Chang" is a marvel movie nothing else describes it. Everybody should see it!

The World Moves Fast But Does Not Outrun Your Champion Meat Market

Since the installing of Calgary Hydro Power we have been able to take advantage of more up-to-date and sanitary methods of handling our fresh meats, etc.

Our sausage machinery is now run by electric power and our refrigerators and show cases are equipped with Frigidaire Cooling System which is considered the best electric refrigeratory system in the world today.

We anticipate a record years business, and we are now in a position to give you bigger and better service than ever before.

Watch our advertisement for many new features we intend to offer you during the coming summer months.

HORACE E. GILL

MAINTAIN THE QUALITY OF ALBERTA'S CROPS

BETTER SEED MEANS

Better Yields—Better Grades—Better Prices

A special committee appointed by the Minister of Agriculture, with the co-operation of numerous organizations in the province, is urging the use this spring throughout the province of

HIGH QUALITY, CLEAN, TREATED, SEED GRAIN

Farmers can co-operate by

1. Using registered seed wherever available.
2. Using at least high quality commercial seed.
3. Having seed tested for germination and purity.
4. Treating seed for smut.
5. Thoroughly cleaning all grain intended for seed.
6. Seeding only varieties of recognized quality and varieties suitable to the district.

Good seed will be in demand this spring. Secure your requirements early—before the supply is exhausted.

U.F.A. Locals, Boards of Trade, The Wheat Pool, Banks, Commercial Grain Firms, the Press, and many other organizations are working in co-operation with a **BETTER SEED COMMITTEE** consisting of representatives of the Provincial Department of Agriculture, the Dominion Seed Branch, The Canadian Seed Growers' Association, the Alberta Seed Growers' Association, the C.P.R. Agricultural Department and the University of Alberta.

D. A. McCANNELL, Provincial Publicity Commissioner, Edmonton, Sec'y

PROVE Pontiac Six as it has been proved on the General Motors Proving Ground. The most gruelling endurance and performance tests have been passed by Pontiac Six with flying colors. For there's strength and stamina in the Pontiac Six engine, to match its smoothness and swiftness and its superbundant power.

Take Pontiac Six out on the road and prove the reasons why Pontiac has won the most enthusiastic acceptance ever accorded any new car.

And, thanks to the volume purchasing and production facilities of General Motors, the New and Finer Pontiac Six, with new elements of beauty, luxury and quality, with proven power, speed and smoothness, is available at New and Lower Prices.
